If you fulfill the nationality criteria, you can proceed to the following question:

B4. Have you been resident in Ireland for at least 3 of the last 5 years?-

To be eligible for a fee grant and a maintenance grant, if applicable, you must have been resident in Ireland for at least 3 of the 5 years prior to the year in which your course commences. If you answer ‘No’, question B5 will appear as shown here.

B5. Have you been resident in the EU, EEA, UK or Switzerland for 3 of the last 5 years?-

If you were not resident in Ireland for 3 of the 5 years prior to the year in which your course commences, but have been resident in another EU Member State, the EEA, the UK or Switzerland for at least 3 of the last 5 years prior to the year in which your course commences, you are known as a tuition student. Tuition students may be eligible for a fee grant only.

If applicable, please use the table provided, (shown above) to give details of where you were resident during the requisite period. If the reason that you were temporarily resident outside of Ireland was because you were pursuing an approved course of study or postgraduate research in the EU, then you may still be eligible for a student grant.

If you answer ‘No’ to both question B4 and B5 you will not meet the residency requirements for grant funding, as set out in the Student Support Act 2011 and, as such, you will be unable to proceed with your grant application and you will see the following pop-up box.
